

NOTICE OF AMENDMENT TO CONTRACT NO. PSC2009/008

In terms of the Municipal Finance Management Act, Section 116(3)(i) and (ii), notice is hereby given for the proposed amendment to Contract No. PSC2009/008.

Project details are given below:-

Contract Name

Professional Services Contract for KwaMashu Wastewater Treatment Works: Civil and Electro-Mechanical Engineering Design and Construction Supervision for Sludge Treatment Capacity Upgrade.

Award

Awarded on 2009-11-17 to BKS (Pty) Ltd (now AECOM (Pty) Ltd) following a tender process which involved the four (4) service providers from the panel that was appointed to tender on selected projects relating to the provision of wastewater treatment facilities within the EtheKwini area.

Contract Authority

Current contract authority R9 109 375, 00 (VAT excluded).

Reasons for Amendment

Initial construction estimates were prepared when only a preliminary and basic design/scope of work was available. Only at the detailed design stage, and then construction stage, did many additional and substantial requirements become evident. As the value of the construction work has increased and as the professional services contract amount is directly related to construction cost and time, it has become necessary to apply for additional contract authority and an extension to the period of performance for the consultant's contract.

Amendments

Amended contract authority R16 109 375, 00 (VAT excluded) with completion due at end of defects and liability periods for both the civil and electro-mechanical contracts.

Affected parties must submit representations not later than 26 September 2014

Addressed to:-

Iain Bell (for the City Manager)
6th Floor City Engineers Building
166 K.E. Masinga Road
DURBAN
